ABOUT ME

I am interested in and passionate about programming. I have known IT since I was in SMK. Currently, I am studying for Diploma 4 at Batam State Polytechnic, I also have experience in basic networking. And I also have experience learning programming for 2.5 years.

SKILLS

- Javascript
- Node.js
- React
- Html
- Css
- C#

PROJECT EXPERIENCE

BATAM_FRESH_FISH • OKTOBER 2020 – JANUARY 2021

The Batam Fresh Fish Project is a training project for making web design displays that use CSS, javascript, and bootstrap, while the job desk that I work on is programming.

PBL_GAME_SPACE_IMPACT • JANUARY 2022 – JUNI 2022

Game Space impact is a Game Project that has been made by our team, while the game project is 3d asset, 2.5D camera, and my job is the group leader, namely monitoring members, distributing assignments, and also as a programmer using the C# language.

STUDENT CREATIVITY PROGRAM APRIL 2022 – SEPTEMBER 2022

I took part in the student creativity program and I passed funding from the title I took, namely Mak Yong Theater Dance as an effort to preserve Malay art based on Virtual Reality with Malay Traditional Institutions, my role here is as a group leader and also monitoring group members, and giving job desks to the team.

PBL_SCHOOL_FACILITIES_REPORTS • JULI 2022 – DESEMBER 2022

SI-LAH or School Facilities Reporting Information System is a project provided by the campus, this project is in the form of a school facility report using node.js as the backend and react.js as the frontend and mobile apps. My job here is as a backend and also a frontend along with deploying projects using AWS.
